Index

Volumes I–X

Volume I (1969)

January 1–120
April 121–218
July 219–320
October 321–420

Volume II (1970)

January 1–94
April 95–202
July 203–314
October 315–428

Volume III (1971)

January 1–108
April 109–202
July 203–298
October 299–420

Volume IV (1972)

January 1–116
April 117–214
July 215–336
October 337–448

Volume V (1973)

January 1–90
April 91–180
July 181–270
October 271–380

Volume VI (1974)

January 1–108
April 109–208
July 209–312
October 313–416

Volume VII (1975)

January 1–106
April 107–226
July 227–350
October 351–478

Volume VIII (1976)

January 1–112
April 113–230
July 231–338
October 339–489

Volume IX (1977)

January 1–106
April 107–214
July 215–318
October 319–445

Volume X (1978)

January 1–104
April 105–210
July 211–308
October 309–453

Abler, Ronald, John S. Adams, and Peter Gould, *Spatial Organization*, review, IV, 428–29

Abstracts, I, 118–20

Abu-Ayyash, A. Y., review of *Urban Geography: A Social Perspective*, VII, 103–5

Accessibility and the Effect of Scalar Variation on the Powered Transportation Connection Matrix, Fredrick P. Stutz, V, 61–66

Achabal, Dale D., The Development of a Spatial Delivery System for Emergency Medical Services, X, 47–64

Ackerman, Bruce A., Susan Rose Ackerman, James W. Sawyer, Jr., and Dale W. Henderson, *The Uncertain Search for Environmental Quality*, review, IX, 211–14

Ackerman, Susan Rose. *See* Ackerman, Bruce A.

Ackerman, W., review of *Geography: A Modern Synthesis*, VI, 206–7

Adejuwon, O., A Note on the Comparison of Chorochromatic Surfaces, VII, 435–40

Adjustment Process in a System: A Behavioral Model of Human Movement, Stephen M. Golant, III, 203–20

Aggregation and Statistical Analysis: A Comment, W. A. V. Clark and Karen L. Avery, X, 194–95

Agnew, John A., review of *Impact of Uncertainty on Location*, VII, 213–15; reviews of *Low-Income Housing: Suburban Strategies* and *Housing the Poor in Suburbia: Public Policy at the Grassroots*, X, 89–91

Agricultural Geography, review, IX, 309–10

Agricultural Systems of the World, The: An Evolutionary Approach, review, IX, 309–10

Air Distance versus Road Distance as a Geographical Measure for Studies on Human Population Structure, D. W. Crumpacker, G. Zei, A Moroni, and L. L. Cavalli-Sforza, VIII, 215–23

Alao, Nurudeen, The Dynamics of Regional Growth: Some Elementary Full-Employment, Finite Horizon Models with External Influences, IX, 64–72; A Note on the Solution Matrix of a Network, II, 83–88; Two Classes of Distance Minimization Problems: A Review, Some Interpretations, and Extensions, III, 299–319

Algorithm for the *p*-Median Problem with Maximum Distance Constraints: Extension and Reply, Basheer M. Khumawala, VII, 91–95

Allometric Analysis and Stream Channel Morphometry, Chris C. Park, X, 211–28

Alternative Approaches to Modeling Varied Spatial Behavior, Bernard Fingleton, VIII, 95–101

Alternative Derivation of the Intervening Opportunities Model, An, Rolf R. Schmitt and David L. Greene, X, 73–77

Alves, William R., Comments on Hudson's "Diffusion in a Central Place System," VI, 303–8

Amedeo, Douglas, review of *Introduction to Scientific Geographic Research*, IV, 110–12; review of *Location in Space: A Theoretical Approach to Economic Geography*, V, 168–71

Amedeo, Douglas, and Reginald G. Golledge, *An Introduction to Scientific Reasoning in Geography*, review, IX, 434–40

Analytic Delineation of Thiessen Polygons, Dierk Rhynsburger, V, 133–34

Analyzing Multiple Alternative Dependent Variables, Neil Wrigley, VII, 187–95

Anavari, Morteza. *See* Gates, Gary R.

Angel, Shlomo, and Geoffrey M. Hyman, Transformations and Geographic Theory, IV, 350–67

Applications of the Location Set-covering Problem, Charles ReVelle, Constantine Toregas, and Louis Falkson, VIII, 65–76

Applications of the Log-linear Model to the Analysis of Spatial Data, The, Robert G. Reynolds, VI, 179–86

Applications of Spacing Models in Intra-City Studies, W. A. V. Clark, I, 391–99

Approach to Trading Off Economic and Environmental Values in Industrial Land-Use Planning, An, R. M. Davis, C. S. Stacey, G. I. Nehman, and R. K. Goodman, VII, 397–410

Armstrong, Regina Belz, and Boris Pushkarev, *The Office Industry: Patterns of Growth and Location*, review, VII, 460–63

Armstrong, R. W., Local Food Sources in a Southern Illinois Population, II, 149–64; Tracing Exposure to Specific Environments in Medical Geography, V, 122–32

Arnfield, John A., reviews of *Atmospheric Pollution; Climate in Review;* and *Understanding Our Atmospheric Environment*, VII, 221–25

Assessment of the Action Component of Action Space, An, Gary Higgs, VII, 35–50

Association between Population Density and the Market Areas of Towns, M. J. Webber, VI, 109–34

Astrachan, E. *See* Royaltey, H. H.

Atmospheric Pollution, review, VII, 221–25

Attitude Measurement for Marketing Strategies, review, VI, 396–400

Austin, C. Murray, The Evaluation of Urban Public Facility Location: An Alternative to Benefit-Cost Analysis, VI, 135–45

Austin, Murray, Tony E. Smith, and Julian Wolpert, The Implementation of Controversial Facility-Complex Programs, II, 315–29

Avery, Karen L. *See* Clark, W. A. V.

Bach, Wilfred, *Atmospheric Pollution*, review, VII, 221–25

Baker, B. Lea, review of *Quantitative Methods in Geography: An Introduction to Spatial Analysis*, X, 209–10; review of *Spatial Analysis in Archaeology*, X, 97–99

Ballou, Donald P., and John S. Pipkin, A Continuous Model of Traffic Flow, IX, 346–63

Bannister, Geoffrey, Land Use Theory and Factor Intensities, IX, 319–31; review of *Mathematical Land Use Theory*, X, 303–5

Barber, G. M. *See* MacKinnon, Ross D.

Barnett, J. Ross, Scale Components in the Diffusion of the Danish Communist Party, 1920–64, V, 35–44

Barton, B., and W. Tobler, A Spectral Analysis of Innovation Diffusion, III, 182–86

Basis for Stability of Interregional Transactions, The, Julian Wolpert, I, 152–80

Basoglu, Umit. *See* Keyes, Dale L.

Batty, Michael, Entropy in Spatial Aggregation, VIII, 1–21; Spatial Entropy, VI, 1–32; review of *Urban Space and Structures*, V, 365–67; *Urban Modelling: Algorithms, Calibrations, Predictions*, review, X, 302–3

Beavon, Keith S. O., City-Rich and City-Poor Sectors: A Comment on the Construction of the Löschian Landscape, X, 77–82.

Beavon, Keith S. O., and A. V. Hall, A Geotaxonomic Approach to Classification in Urban and Regional Studies, A Comment, IV, 407–15

Beavon, Keith S. O., and Alan S. Mabin, The Lösch System of Market Areas: Derivation and Extension, VII, 131–51

Behavioral Decision in Organizations, review, VI, 396–400

Bell, Thomas L., review of *Image and Environment: Cognitive Mapping and Spatial Behavior*, VII, 344–47

Berry, Brian J. L., and Paul J. Schwind, Information and Entropy in Migrant Flows, I, 5–14

Betak, John F., The Conceptual Locus of a Two-Dimensional Language: Some Implications for Human Responses to Two-Dimensional Displays, VII, 1–17; review of *New Homes and Poor People: A Study of Chains of Moves*, VI, 95–99; review of *Planned Residential Environments*, VI, 197–201; Syntactic and Subjective Complexity: A Simple Test of a Two-Dimensional Language Model, VII, 285–93; Two-Dimensional Syntactic Complexity Measures: A Preliminary Evaluation, V, 5–15

Bigman, David, and Charles ReVelle, The Theory of Welfare Considerations in Public Facility Location Problems, X, 229–40

Binary Logic Solutions to a Class of Location Problem, Constantine Toregas and Charles ReVelle, V, 145–55

Bird, J. B., review of *Glacial and Periglacial Geomorphology*, I, 411–12

Black Ghetto, The: A Spatial and Behavioral Perspective, review, V, 87–89

Black, William R., An Iterative Model for Generating Transportation Networks, III, 283–88; A Note on the Geometry of Minimal Trees, II, 410–14

Blumner, Sidney M., and Vaughn M. Johnson, The Effects of Selected Variables on Housing Values in Pomona, California, VII, 303–10

BMDP Biomedical Computer Programs, review, IX, 308–10

Board, Christopher, Richard J. Chorley, Peter Haggett, and David R. Stoddart, *Progress in Geography*, Vols. 1 and 2, review, III, 407–9; Vol. 3, review, V, 171–74; Vol. 5, review, VI, 400–402

Bonner, W. D. *See* Neiburger, Morris

Books Received, III, 410–13; IV, 438–39; V, 368–70; VI, 403–7; VII, 466–70

Boots, B. N., Contact Number Properties in the Study of Cellular Networks, IX, 379–80

Boots, Barry N., Arthur Getis, and George Hagevik, Evaluation of an Air Pollution Intensity Model in the Northeast New Jersey-New York City Area, IV, 373–91

Bosch, William, A Procedure for Quantifying Certain Geomorphological Features, X, 241–47

Bounded Planar Networks: A Theory of Radial Structures, Keith J. Tinkler, IV, 5–33

Bowden, M. J. *See* Lowenthal, D.

Boyce, David E., Norman D. Day, and Chris McDonald, *Metropolitan Plan Making: An Analysis of Experience with the Preparation and Evaluation of Alternative Land Use and Transportation Plans*, review, V, 79–80

Briggs, Ronald, A Model to Relate the Size of the Central Business District to the Population of a City, VI, 265–79; review of *The Urban Mosaic: Towards a Theory of Residential Differentiation*, V, 85–87

Brown, J. Randall. *See* Harvey, Milton E.

Brown, Kenneth M., Regional Differences in Efficiency: Implications for a Model of Regional Income and Growth, III, 354–60
